

KINGSTON MAURWARD COLLEGE

14-16 Schools Programme –
available from September
2023

From September 2023, Kingston Maurward College can provide schools across the region with a unique opportunity to partner in specialist 14-16 programmes. We offer school learners in years 10 and 11 the opportunity to study a college course alongside their existing GCSE subjects at school. A partnership with Kingston Maurward College will enhance your schools' programme with the benefit of excellent teaching, specialist knowledge, realistic working environments and outstanding facilities, all provided by the college.

The Kingston Maurward Schools Programme provides nationally recognised qualifications which combine both practical skills development and academic content, which are highly valued by employers and effective at helping students into work. Research shows that exam success rates improve through vocational learning, as many students are happier and more fulfilled when their learning is centred on practical work experience.

The Kingston Maurward Schools Programme is specifically aimed at individual learners in school years 10 and 11 who may find it a challenge accessing education in a mainstream setting. The Schools Programme and Kingston Maurward provides learners with a number of opportunities to successfully fulfil their potential and to make progress in their learning.

The Schools Programme is tailored to the individual learner as much as possible, with a focus on providing teaching and learning activities in a way that enables high achievement. Learners have the opportunity to select a vocational area of choice, with the opportunity to access English and maths as part of the programme. Learners can choose to study courses in the following vocational areas:

- Agriculture
- Animal Care
- Equine
- Horticulture
- Sport

This programme can work in partnership with the learners' other studies at school and can be for up to a maximum of 3 days per week at Kingston Maurward.

The cost of the programme is calculated for the whole academic year (35 weeks, following the Kingston Maurward term dates) and are based on the number of days attended per week:

Number of days attended per week	Cost for the year
1 day	£1700
2 days	£3400
3 days	£5100

If you would like to learn more about the opportunities Kingston Maurward College could offer your school, please contact our Student Administration Team on **01305 215034** or email **schools@kmc.ac.uk** to discuss your requirements.
